**Wants more money to public schools; Raise minimum wage; Affordable universal healthcare**

**Total TPM Score: 2**

## **Summary Comments:**

Radical Indivisible groups and Progressive groups are linking with Democrats to support Dem candidates, including Liv Coleman.

As a member of the Florida House, Tommy Gregory would work hard to protect our tax dollars and protect our freedoms and follow Constitutionally limited government.

In contrast, his opponent, Liv Coleman, wants to limit gun rights, supports tuition-free college for at least two years, and supports affordable universal healthcare. She wants to spend more of our tax dollars and limit our Constitutional freedoms.

**We strongly endorse Tommy Gregory for House Dist 73.**
